FULLSTACK DEVELOPER

Eager and motivated junior developer with a passion for problem-solving and a dedicated commitment to delivering high-quality code. Possessing a strong aptitude for creating efficient project plans that align with development goals, while fostering collaboration and motivating teams to achieve success. Actively seeking a junior developer role to apply and enhance my coding skills, contributing positively to the team and organizational objectives.

WORK EXPERIENCE

Frontend Developer
KoletSpace | 01/2021- 12/2021
- Spearheaded the development of sophisticated frontend UI components for an innovative event rental startup application.

- Implemented seamless integration between the application's backend and frontend, optimizing communication for enhanced user experience.

FullStack Developer
BestQuote | 01/2022- 08/2022
-Collaborated closely with senior developers to contribute significantly to API creation using Django Rest Framework and actively engaged in version control through Git for production environments

-Led the design and implementation of user interfaces for various projects
-Developed Python models in Django, playing a pivotal role in shaping the project's data structure and functionality.

Frontend Developer
CodeWright | 06/2023 - 12/23
-Designing intricate user interfaces for a travel application.
-Developing responsive applications to ensure optimal user experience on various devices.
